MEMORANDUM FOR Mr. Bill Stromdahl
Solidstrip Inc.
(Cage Code: OV5J2)
8618 US HWY 51 North
Minocqua, WI 54548-9347

FROM: AFRL/RXSSR
325 Richard Ray Blvd., Bldg. 165
Robins AFB, GA 31098-1639

SUBJECT: APPROVAL OF SOLIDSTRIP INC. (Type VIII) Engineered Media, Mesh Size: 20-30 PLASTIC MEDIA (Lot/Charge number 183461)

1. Our office has the responsibility for maintaining the list of qualified product manufacturers (QPM) conforming to MIL-P-85891 under a joint Memorandum of Agreement with all federal organizations. First article testing is performed on a no more than biannual basis according to the procedures described in MIL-P-85891. The latest round of testing for all suppliers was completed in July 2014. The authorized/approved PMB media types for MIL-P-85891 called out within T.O. 1-1-8 will be updated based on the test results submitted to our office.

2. In the interim, this letter is provided to Solidstrip Inc. to indicate that their Type VIII engineered media has passed the MIL-P-85891 first article testing (completed 15 July 2014) and is approved for use until Jul 2017 or until our next round of testing is completed, if not removed earlier for non-conformance. At that time, Solidstrip Inc. will be required to supply our office with a new 3rd party, 1st article test report per the newest version of Mii-P-85891. To remain on this Mil-P-85891 qualified product list (QPL), manufacturers must re-qualify their product every 3 years, unless required earlier from the date of this approval letter. Failure to re-qualify will be sufficient justification for removal from T.O. 1-1-8 and / or the Mii-P-85891 QPL, QPM, or the new Qualified Products Database (QPD).

3. Our office has forwarded your approval /qualification to the Mii-P-85891 QPL by e-mail to Mr. Mark Giesbrecht at the General Services Administration with the same date as your letter.

4. This qualification to Mii-P-85891 is binding upon the manufacturer or suppliers in accordance with Defense Standardization Manual 4120.24-M and SD-6 document attached in electronic format.

5. Points of contact are Mr William P. Hoogsteden, AFRLIRXSSO, 937-656-4223 or DSN 986-4223 or Charles E. (Mac) McKenna, on-site Support Contractor, 1-478-926-9109 / DSN: 468-9109.
